Remote Deposit Capture

**MATERIAL REPLACEMENT
DOCUMENT**

Remote Deposit Capture Material Replacement Document

There may come a time when you only have a check with no invoice to scan on Remote Deposit Capture, but you only have the Check and Document capture type on Capture Entry screen. Please follow the procedures below to process your transaction quickly.

1. Print the first page of this document.
2. Place the Material Replacement Document behind the check.
3. Follow the scanning procedures outlined in the Remote Deposit Capture User Guide.

The transaction will be processed just like your other Remote Deposit Capture transactions and deposited accordingly.
