

Bringing Greater Efficiency to Your Receivables: Receivables EdgeSM and Virtual RemitSM

J.P.Morgan

ONLINE SEMINAR

Join us for a webinar that introduces Receivables Edge, followed by an overview of Virtual Remit and advanced Receivables Edge features.

This 90-minute session will provide a demonstration of Receivables Edge functionality. The first half of the session will focus on core Receivables Edge features, with the second half reserved for more advanced features.

With Receivables Edge, learn how you can:

- Decrease time and staff required to manage exceptions.
- Eliminate paper-based processing from accounts receivable.
- Access payment and document images on-line for up to 10 years.
- Employ one Internet portal to manage both paper and electronic payments.
- Automatically associate remittances with payment only transactions such as Wire, ACH CCD and Check Only.
- Integrate remitter profiles to reduce data capture costs, enrich search capabilities and automate exception handling.
- Build your own reports to support ad hoc analysis.
- Utilize Virtual Remit, our lockbox remote capture solution, to help save expenses associated with processing payments and remittances received in-house.

2012 MEETING SCHEDULE

WEDNESDAY 3:00–4:30 p.m. ET / 2:00–3:30 p.m. CT / 12:00–1:30 p.m. PT
