

Network Management

Providing clients with extensive global coverage and expertise

J.P. Morgan clients benefit from our Network Management structure, which combines regional coverage with functional team discipline. This model provides extensive market expertise and risk management, active subcustodian management and monitoring, best-in-class market information and hands-on support and consultation for our clients. Additionally, J.P. Morgan enables clients to achieve the maximum benefit of our product offerings through a market-leading online tool and the most extensive suite of information products in the industry.

BENEFITS AND FEATURES

Benefit	Features
Increase Efficiency	<ul style="list-style-type: none"> J.P. Morgan has a dedicated Network Service Management team to closely monitor and manage our agent bank network. This focus ensures that we are able to offer a highly efficient service to our clients. Our regional structure ensures that we are in close proximity to markets and have immediate access to the latest news and information. This offers clients in-depth, up-to-date knowledge of all of the markets we cover.
Mitigate Risk	<ul style="list-style-type: none"> J.P. Morgan offers market information tools to help clients identify and understand the key risks and issues at all investment stages. Our online Market Intelligence tool enables clients to merge information with their own data, generate meaningful board-quality reports, create customized analyses and share results in a variety of formats. J.P. Morgan works in close consultation with our clients and the local markets. We leverage our expertise to create solutions to meet the challenges and reduce the risks of cross-border investing.
Enhance Returns	<ul style="list-style-type: none"> Our clients demand and receive best-in-class service across the global markets in which they invest. J.P. Morgan's subcustodian network, comprehensive portfolio reporting capabilities and proprietary market information services help clients obtain timely settlement across markets and asset classes.
