

J.P. Morgan ACCESS[®] Market Intelligence

A fast and efficient way to monitor global events that impact international investor

Market Intelligence is a component of the J.P. Morgan ACCESS[®] portal, our single and secure point of access for your transactional, compliance and portfolio management needs.

Market Intelligence offers a broad range of market information to global investors, including access to a robust suite of essential market information that helps clients identify key risks and issues at all stages of the investment decision-making process.

Highlights

The *Market Intelligence Bulletin Board* is your home page for current market updates and important system information. From the Market Intelligence home page, quickly access:

- Comprehensive market information about local market practices and nuances, profiles, comparisons and the holiday trading calendar.
- NewsFlashes with time-sensitive details about important market events and changes in settlement practices for more than 100 markets in our global network.
- Settlement systems and local depository safekeeping risk assessments that measure and identify a majority of the risks associated with each market.
- Investor Kits that outline market entry requirements when opening segregated securities and cash accounts.
- A state-of-the-art *Market Intelligence Dashboard* that delivers essential product information via a customized reporting feature with advanced filtering options.
- Key information about our subcustodians, available in the comprehensive Annual Review of Global Custody Network.
