

Direct Custody and Clearing

PRODUCT PROFILE

J.P. Morgan’s Direct Custody and Clearing (DCC) provides clients with access to all local market infrastructures, including exchanges, clearing houses and depositories. Combining local deployment of world-class technology, proven leadership, comprehensive product and service capabilities in securities services, we meet the needs of a diverse clientele including universal banks, global custodians, market infrastructures, international broker dealers and domestic financial institutions. Through DCC we provide an end-to-end processing capability spanning the clearing, settlement, custody and asset servicing value chain.

Direct Custody and Clearing Value Chain

Service Offering

Local market experts work in partnership with clients to deliver best-in-class securities services including on-exchange clearing, settlement, safekeeping, asset servicing, fails coverage, FX and treasury services. Close engagement with market infrastructures and decision makers ensures clients' interests are represented locally and they are kept informed of market changes impacting their business.
