**General**

- The notes are designed for investors who seek a higher interest rate than the current dividend yield on the common stocks included in the Dow Jones Industrial Average℠ other than the common stock of JPMorgan Chase & Co., as reflected in “The Reference Stocks” below (each such common stock, a “Reference Stock” and, together, the “Reference Stocks”)
- Upon the occurrence of certain corporate events with respect to the issuers of the Reference Stocks, the Reference Stocks may change during the term of the notes. See “General Terms of Notes — Anti-dilution Adjustments — Reorganization Events” in the accompanying product supplement no. 37-IV for further information about changes to the Reference Stocks.
- Minimum denominations of $1,000 and integral multiples thereof.

**Key Terms**

**Reference Stocks:** The common stocks included in the Dow Jones Industrial Average℠ other than the common stock of JPMorgan Chase & Co., as reflected in “The Reference Stocks” below (each such common stock, a “Reference Stock” and, together, the “Reference Stocks”)

**Interest Rate:** 18.00% per annum

**Protection Amount:** 40.00% of the applicable Initial Share Price of such Reference Stock, subject to adjustments. Please see “The Reference Stocks — Initial Share Prices & Protection Amounts” below for the Protection Amount for each Reference Stock.

**Maturity Date:** January 30, 2008

**Pricing Date:** On or about January 26, 2007

**Settlement Date:** On or about January 31, 2007

**Payment at Maturity:**
- You will receive $1,000 for each $1,000 principal amount note plus any accrued and unpaid interest at maturity unless (a) a Trigger Event has occurred and (b) the Cash Value of the Physical Delivery Amount for the Least Performing Reference Stock is less than $1,000, in which case in lieu of $1,000 in cash you will receive the Physical Delivery Amount (or, at our election, the market value of the shares of the Least Performing Reference Stock delivered to you as the Physical Delivery Amount or the Cash Value thereof will be less than the principal amount of your notes and may be zero. Accordingly, you may lose some or all of your principal if you invest in the notes.

**Trigger Event:** A Trigger Event occurs if, on any day during the Monitoring Period, the closing price of any Reference Stock has declined, as compared to the respective Initial Share Price and Final Share Price of the other Reference Stocks, or, (ii) if the Final Share Price of each of the Reference Stocks has appreciated in value as compared to its respective Initial Share Price, the least percentage increase between such Reference Stock’s Initial Share Price and its Final Share Price, as compared to the percentage increase of the Least Performing Reference Stock.

**Monitoring Period:** The period from the Pricing Date to and including the Maturity Date.

**Physical Delivery Amount:** For each Reference Stock, the number of shares of such Reference Stock, per $1,000 principal amount note, equal to $1,000 divided by the Initial Share Price for such Reference Stock.

**Initial Share Price:** The closing price of the Reference Stock on the Pricing Date. Please see “The Reference Stocks — Initial Share Prices & Protection Amounts” below for the Initial Share Price for each Reference Stock.

**Final Share Price:** For each Reference Stock, the closing price of such Reference Stock on the Observation Date. Please see “The Reference Stocks — Initial Share Prices & Protection Amounts” below for the Final Share Price for each Reference Stock.

**Final Physical Delivery Amount:**
- Subject to postponement in the event of a market disruption event and as described under “Description of Notes — Payment at Maturity” in the accompanying product supplement no. 37-IV.

**Investing in the Reverse Exchangeable Notes involves a number of risks.** See “Risk Factors” beginning on page PS-5 of the accompanying product supplement no. 37-IV and “Selected Risk Considerations” beginning on page TS-2 of this term sheet.

JPMorgan Chase & Co. has filed a registration statement (including a prospectus) with the Securities and Exchange Commission, or SEC, for the offering to which this term sheet relates. Before you invest, you should read the prospectus, product supplement, product supplement no. 37-IV and any other documents relating to this offering that JPMorgan Chase & Co. has filed with the SEC for more complete information about JPMorgan Chase & Co. and this offering. You may get these documents without cost by visiting EDGAR on the SEC Web site at www.sec.gov. Alternatively, JPMorgan Chase & Co., any agent or any dealer participating in this offering or any other person may distribute these documents electronically. If you request a paper copy of these documents, please call toll-free 866-535-9248.
ADDITIONAL TERMS SPECIFIC TO THE NOTES

You should read this term sheet together with the prospectus dated December 1, 2005, as supplemented by the prospectus supplement dated October 12, 2006 relating to our Series E medium-term notes of which these notes are a part, and the more detailed information contained in product supplement no. 37-IV dated December 4, 2006. This term sheet, together with the documents listed below, contains the terms of the notes and supersedes all other prior or contemporaneous oral statements as well as any other written materials including preliminary or indicative pricing terms, correspondence, trade ideas, structures for implementation, sample structures, fact sheets, brochures or other educational materials of ours. You should carefully consider, among other things, the matters set forth in “Risk Factors” in the accompanying product supplement no. 37-IV, as the notes involve risks not associated with conventional debt securities. We urge you to consult your investment, legal, tax, accounting and other advisers before you invest in the notes.

You may access these documents on the SEC Web site at www.sec.gov as follows (or if such address has changed, by reviewing our filings for the relevant date on the SEC Web site):

- Prospectus supplement dated October 12, 2006: http://www.sec.gov/Archives/edgar/data/19617/000089109206003117/e25276_424b2.pdf
- Prospectus dated December 1, 2005: http://www.sec.gov/Archives/edgar/data/19617/000089109205002389/e22923_base.txt

Our Central Index Key, or CIK, on the SEC Web site is 19617. As used in this term sheet, the “Company,” “we,” “us,” or “our” refers to JPMorgan Chase & Co.

Selected Purchase Considerations

- **THE NOTES OFFER A HIGHER INTEREST RATE THAN THE YIELD ON DEBT SECURITIES OF COMPARABLE MATURITY ISSUED BY US OR AN ISSUER WITH A COMPARABLE CREDIT RATING** — The notes will pay at least 18.00% interest per year, which we believe is higher than the yield received on debt securities of comparable maturity issued by us or an issuer with a comparable credit rating. The actual interest rate will be determined on the pricing date and will not be less than 18.00%. Because the notes are our senior unsecured obligations, any interest payment or any payment at maturity is subject to our ability to pay our obligations as they become due.

- **MONTHLY INTEREST PAYMENTS** — The notes offer monthly interest payments at 18.00% per year. Interest will be payable monthly in arrears on the last calendar day of each month, except for the monthly interest payment due in January 2008, which shall be payable on January 30, 2008 (each such date, an “Interest Payment Date”), commencing February 28, 2007, and including the Interest Payment Date corresponding to the Maturity Date. The interest payments shall be payable to the holders of record at close of business on the date 15 calendar days prior to the applicable Interest Payment Date. If an Interest Payment Date is not a Business Day, payment shall be made on the next Business Day immediately following such day, but no additional interest will accrue as a result of the delayed payment. For example, the monthly interest payment due in March 2007 shall be payable on April 2, 2007.

- **THE NOTES DO NOT GUARANTEE THE RETURN OF YOUR PRINCIPAL** — Your return of principal at maturity is protected so long as a Trigger Event does not occur or if the Final Share Price of each Reference Stock has appreciated, as compared to its respective Initial Share Price. However, if a Trigger Event has occurred, you could lose the entire principal amount of your notes.

- **REFERENCE STOCKS** — The Reference Stocks are the component stocks of the Dow Jones Industrial AverageSM Index, which we refer to as the Index, as of January 4, 2007, excluding the common stock of JPMorgan Chase & Co. The Reference Stocks will not be modified for changes in the composition of the Index during the term of the notes, but may be modified in the case of certain corporate events. See “General Terms of Notes — Anti-dilution Adjustments — Reorganization Events” in the accompanying product supplement no. 37-IV for further information about selecting a successor Reference Stock.

- **YOUR RETURN AT MATURITY MAY BE BASED ON A REFERENCE STOCK THAT DID NOT EXPERIENCE A DECLINE IN EXCESS OF ITS PROTECTION AMOUNT DURING THE MONITORING PERIOD** — Your return at maturity may not necessarily be based on a Reference Stock that declines by more than its Protection Amount during the Monitoring Period. For example, if a Trigger Event occurs with respect to a Reference Stock and that Reference Stock experiences a significant closing price increase on the Observation Date such that its Final Share Price exceeds its Initial Share Price, your return on the notes will probably not be based on the performance of that Reference Stock. Under these circumstances, if on the Observation Date the Final Share Price of one or more of the remaining twenty-eight (28) Reference Stocks declines from its respective Initial Share Price, your return on the notes will be based on the Least Performing Reference Stock, which Reference Stock will be different than the Reference Stock that initially declined by more than its Protection Amount. Accordingly, you could lose a portion of your principal amount even if the Least Performing Reference Stock never, at any time during the Monitoring Period, declined by more than its Protection Amount.

- **TAX TREATMENT AS A UNIT COMPRISING A PUT OPTION AND A DEPOSIT** — You should review carefully the section “Certain U.S. Federal Income Tax Consequences” in the accompanying product supplement no. 37-IV. Subject to the limitations described therein, and based on certain factual representations received from us, in the opinion of our special tax counsel, Davis Polk & Wardwell, it is reasonable to treat the notes as a unit comprising a Put Option and a Deposit for U.S. federal income tax purposes. We will determine what portion of the periodic payments made to you with respect to the notes will be treated as interest on the Deposit and as premium in consideration of your entry into the Put Option and will provide such allocation in the final term sheet or pricing supplement for the notes. By purchasing the notes, you agree to treat the notes for U.S. federal income tax purposes consistently with our treatment and determination as described above. If the notes had priced on
An investment in the notes involves significant risks. Investing in the notes is not equivalent to investing directly in one or more of the Reference Stocks. These risks are explained in more detail in the “Risk Factors” section of the accompanying product supplement no. 37-IV dated December 4, 2006.

- **YOUR INVESTMENT IN THE NOTES MAY RESULT IN A LOSS** — The notes do not guarantee any return of principal. The payment at maturity will be based on the Final Share Price of the Least Performing Reference Stock and whether the closing price of any Reference Stock has declined from its Initial Share Price by more than the Protection Amount on any day during the Monitoring Period. Under certain circumstances, you will receive at maturity a predetermined number of shares of the Least Performing Reference Stock (or, at our election, the Cash Value thereof). The market value of those shares of the Least Performing Reference Stock or the Cash Value thereof will be less than the principal amount of each note and may be zero. In addition, on the pricing date, stock prices generally in the market and stock prices for the Reference Stocks may be significantly higher than historical averages, which could increase the likelihood of subsequent declines in stock prices and of a Trigger Event with respect to one such Reference Stock. Accordingly, you could lose up to the entire principal amount of your notes.

- **YOUR PROTECTION AMOUNT MAY TERMINATE ON ANY DAY DURING THE TERM OF THE NOTES** — If, on any day during the Monitoring Period, the closing price of any Reference Stock declines below its Initial Share Price minus its Protection Amount, you will be fully exposed to any depreciation in the Least Performing Reference Stock. We refer to this feature as a contingent buffer. Under these circumstances, if the Cash Value of the Physical Delivery Amount for the Least Performing Reference Stock is less than $1,000, you will receive at maturity for each $1,000 principal amount note a predetermined number of shares of Least Performing Reference Stock (or, at our election, the Cash Value thereof) and, consequently, you will lose 1% of the principal amount of your investment for every 1% decline in the Final Share Price of the Least Performing Reference Stock compared to the Initial Share Price of the Least Performing Reference Stock. You will be subject to this potential loss of principal even if the prices of the Reference Stocks subsequently recover such that the Final Share Price of each Reference Stock closes at a level above its respective Initial Share Price minus its respective Protection Amount. If these notes had a non-contingent buffer feature, under the same scenario, you would have received the full principal amount of your notes plus accrued and unpaid interest at maturity. As a result, your investment in the notes may not perform as well as an investment in a security with a return that includes a non-contingent buffer.

- **YOUR RETURN ON THE NOTES IS LIMITED TO THE PRINCIPAL AMOUNT PLUS ACCRUED INTEREST REGARDLESS OF ANY APPRECIATION IN THE VALUE OF ANY REFERENCE STOCK** — Unless (i) the Final Share Price of any Reference Stock is less than its Initial Share Price and (ii) on any day during the Monitoring Period, the closing price of any Reference Stock has declined, as compared to its Initial Share Price, by more than its Protection Amount, for each $1,000 principal amount note, you will receive $1,000 at maturity plus accrued and unpaid interest, regardless of any appreciation in the value of any Reference Stock, which may be significant. Accordingly, the return on the notes may be significantly less than the return on a direct investment in one or more of the Reference Stocks during the term of the notes.

- **YOU ARE EXPOSED TO THE CLOSING PRICE RISK OF EACH REFERENCE STOCK** — Your return on the notes and your payment at maturity, if any, is not linked to a basket consisting of the Reference Stocks. Rather, you will receive set interest payments at a rate of not less than 18.00% per annum and your payment at maturity is contingent upon the performance of each individual Reference Stock such that you will be equally exposed to the risks related to all of the Reference Stocks. Poor performance by any one of the Reference Stocks over the term of the notes may negatively affect your payment at maturity and will not be offset or mitigated by positive performance by any of the other Reference Stocks. The performance of the individual Reference Stocks, and your payment at maturity, should not be expected to match the performance of the Dow Jones Industrial AverageSM Index.

- **YOUR PAYMENT AT MATURITY MAY BE DETERMINED BY THE LEAST PERFORMING REFERENCE STOCK** — If a Trigger Event occurs, you will lose some or all of your investment in the notes if the Final Share Price of any Reference Stock closes at a level below its Initial Share Price. This will be true even if (i) the Final Share Price of each of the other twenty-eight (28) Reference Stocks has appreciated in value compared to its respective Initial Share Price and/or (ii) the sole Reference Stock with a Final Share Price that declined compared to its Initial Share Price was not the same Reference Stock which declined by more than its Protection Amount during the Monitoring Period.

- **NO OWNERSHIP RIGHTS IN THE REFERENCE STOCKS** — As a holder of the notes, you will not have any ownership interest or rights in the Reference Stocks, such as voting rights, dividend payments or other distributions. In addition, the issuers of the Reference Stocks will not have any obligation to consider your
During the Monitoring Period.

Amount on any day from the Pricing Date to and including the Observation Date, except as indicated in the column titled Reference Stock at maturity that never experiences a decline from its Initial Share Price in excess of the Protection Stock for the purposes of calculating your actual payment at maturity. In addition, you may receive shares of a

We make no representation or warranty as to which of the Reference Stocks will be the Least Performing Reference common stock of Citigroup Inc. will be the least performing Reference Stock at all times during the term of the notes. “Hypothetical lowest closing price of the common stock of Citigroup Inc. during the Monitoring Period.” The following

Examples of Hypothetical Payment at Maturity for Each $1,000 Principal Amount Note

The following table illustrates hypothetical payments at maturity on a $1,000 investment in the notes, based on a range of hypothetical Final Share Prices for the Least Performing Reference Stock and assuming that the closing price of each Reference Stock did not decline, as compared to its respective Initial Share Price, by more than its respective Protection Amount on any day from the Pricing Date to and including the Observation Date, except as indicated in the column titled “Hypothetical lowest closing price of the common stock of Citigroup Inc. during the Monitoring Period.” The following table assumes that the Least Performing Reference Stock will be the common stock of Citigroup Inc. and that the common stock of Citigroup Inc. will be the least performing Reference Stock at all times during the term of the notes. We make no representation or warranty as to which of the Reference Stocks will be the Least Performing Reference Stock for the purposes of calculating your actual payment at maturity. In addition, you may receive shares of a Reference Stock at maturity that never experiences a decline from its Initial Share Price in excess of the Protection Amount during the Monitoring Period. For more information see “Selected Purchase Considerations — Your Return At Maturity May Be Based On A Reference Stock That Did Not Experience A Decline In Excess Of Its Protection Amount During The Monitoring Period.”
For this table of hypothetical payments at maturity, we have also assumed the following:
- the Initial Share Price: $55.00
- the Protection Amount: $22.00
- Interest: 18.00%

* Note that you will receive at maturity any accrued and unpaid interest in cash, in addition to either shares of the Least Performing Reference Stock (or, at our election, the Cash Value thereof) or the principal amount of your note in cash. Also note that if you receive the Physical Delivery Amount, the total value of payment received at maturity shown in the table above includes the value of any fractional shares, which will be paid in cash.

The following examples illustrate how the total value of payments received at maturity set forth in the table above are calculated.

**Example 1:** During the Monitoring Period, none of the Reference Stocks close at a price which reflects a decline of more than their respective Protection Amounts. Because Citigroup is the Least Performing Reference Stock and because its Final Share Price of $70.00 exceeds its Initial Share Price of $55.00, you will receive a payment at maturity of $1,000 per $1,000 principal amount note.

**Example 2:** During the Monitoring Period, Citigroup was the first Reference Stock to close at a level below its Initial Share Price minus the Protection Amount. On the Observation Date, Citigroup, still the Least Performing Reference Stock, recovers to a Final Share Price of $56.00. Because the Final Share Price of the Least Performing Reference Stock is above its Initial Share Price, you will receive $1,000 per $1,000 principal amount note at maturity even though a Trigger Event occurred.

**Example 3:** During the Monitoring Period, Citigroup was the first Reference Stock to close at a level below its Initial Share Price minus the Protection Amount. On the Observation Date, Citigroup, still the Least Performing Reference Stock, declines further to a Final Share Price of $15.00. Because at least one of the Reference Stocks had a closing price that had declined from its Initial Share Price by more than its Protection Amount, and because the Final Share Price of the Least Performing Reference Stock is less than its Initial Share Price, you will receive the Physical Delivery Amount of the Least Performing Reference Stock, or, at our election, the Cash Value thereof, at maturity. Because the Final Share Price of the Least Performing Reference Stock is $15.00, the total value of your final payment at maturity, whether in cash or shares of the Least Performing Reference Stock, is $909.09.

**Example 4:** During the Monitoring Period, Citigroup was the first Reference Stock to close at a level below its Initial Share Price minus the Protection Amount. On the Observation Date, Citigroup, still the Least Performing Reference Stock, declines further to a Final Share Price of $15.00. Because at least one of the Reference Stocks had a closing price that had declined from its Initial Share Price by more than its Protection Amount, and because the Final Share Price of the Least Performing Reference Stock is less than its Initial Share Price, you will receive the Physical Delivery Amount of the Least Performing Reference Stock, or, at our election, the Cash Value thereof, at maturity. Because the Final Share Price of the Least Performing Reference Stock is $15.00, the total value of your final payment at maturity, whether in cash or shares of the Least Performing Reference Stock, is $272.73.

Regardless of the performance of the Least Performing Reference Stock or the payment you receive at maturity, you will have received interest payments, for each $1,000 principal amount note, in the aggregate amount of approximately $180.00 over the term of the notes. If we priced the notes on January 4, 2007, you would have received 18 shares of Citigroup Inc. common stock or, at our election, the Cash Value thereof, at maturity, assuming that the Citigroup Inc. common stock was the Least Performing Reference Stock and provided the Citigroup Inc. common stock’s Final Share Price declined from its Initial Share Price and the closing price of at least one Reference Stock declined by more than 40%, as compared to its Initial Share Price on at least one day during the Monitoring Period. The actual number of shares of each Reference Stock or the Cash Value thereof you would receive at maturity (if it were the Least Performing Reference Stock and a Trigger Event occurs) and the actual Protection Amount may be more or less than the amounts displayed in the hypothetical examples and the chart above and will depend in part on the closing price of each Reference Stock on the pricing date.
Public Information

All information contained herein on the Reference Stocks and on the Reference Stock issuers is derived from publicly available sources and is provided for informational purposes only. Companies with securities registered under the Securities Exchange Act of 1934, as amended, which we refer to as the Exchange Act, are required to periodically file certain financial and other information specified by the SEC. Information provided to or filed with the SEC by a Reference Stock issuer pursuant to the Exchange Act can be located by reference to the SEC file number provided below and can be accessed through www.sec.gov. We do not make any representation that these publicly available documents are accurate or complete. See “The Reference Stocks” beginning on page PS-15 of the accompanying product supplement no. 37-IV for more information.

Initial Share Prices & Protection Amounts

The Reference Stocks are the component stocks of the Dow Jones Industrial Average℠ as of January 4, 2007, excluding the common stock of JPMorgan Chase & Co. The table below sets forth the 29 issuers of the Reference Stocks, as well as the ticker symbol for each Reference Stock and the U.S. exchange on which each Reference Stock is listed. The Reference Stocks will not be modified for changes in the composition of the Dow Jones Industrial Average℠ during the term of the notes, but may be modified in the case of certain corporate events. See “General Terms of Notes — Anti-dilution Adjustments.”

The table below indicates the Initial Share Price and Protection Amount for each Reference Stock, subject to adjustments.

Historical Information of the Reference Stocks

The graphs contained in this term sheet set forth the historical performance of each Reference Stock based on the weekly closing price (in U.S. dollars) of that Reference Stock from January 4, 2002 through December 29, 2006. We obtained the closing prices and other market information in this term sheet from Bloomberg Financial Markets, without independent verification. The closing prices and this other information may be adjusted by Bloomberg Financial Markets for corporate actions such as public offerings, mergers and acquisitions, spin-offs, delistings and bankruptcy. We make no representation or warranty as to the accuracy or completeness of the information obtained from Bloomberg Financial Markets.

Since its inception, the price of each Reference Stock has experienced significant fluctuations. The historical performance of each Reference Stock should not be taken as an indication of future performance, and no assurance can be given as to the closing prices of each Reference Stock during the term of the notes. We cannot give you assurance that the performance of each Reference Stock will result in the return of any of your initial investment. We make no representation as to the amount of dividends, if any, that each Reference Stock issuer will pay in the future. In any event, as an investor in the notes, you will not be entitled to receive dividends, if any, that may be payable on each Reference Stock.

*Alcoa Inc. (“Alcoa”)*

According to its publicly available filings with the SEC, Alcoa is the world’s leading producer of primary aluminum, fabricated aluminum, and alumina, and is active in all major aspects of the industry: technology, mining, refining, smelting, fabricating, and recycling. The common stock of Alcoa is listed on the New York Stock Exchange, which we refer to as the Relevant Exchange for purposes of Alcoa in the accompanying product supplement no. 37-IV. Alcoa’s SEC file number is 001-03610.

Historical Information of the Common Stock of Alcoa

The following graph sets forth the historical performance of the common stock of Alcoa based on the weekly closing price (in U.S. dollars) of the common stock of Alcoa from January 4, 2002 through December 29, 2006. The closing price of the common stock of Alcoa on January 4, 2007 was $29.11.
American International Group, Inc. ("AIG")

According to its publicly available filings with the SEC, AIG is a holding company which, through its subsidiaries, is engaged in a broad range of insurance and insurance-related activities in the United States and abroad. The common stock of AIG is listed on the New York Stock Exchange, which we refer to as the Relevant Exchange for purposes of AIG in the accompanying product supplement no. 37-IV. AIG’s SEC file number is 001-08787.

Historical Information of the Common Stock of AIG

The following graph sets forth the historical performance of the common stock of AIG based on the weekly closing price (in U.S. dollars) of the common stock of AIG from January 4, 2002 through December 29, 2006. The closing price of the common stock of AIG on January 4, 2007 was $71.51.

![Historical Performance of AIG](image)

American Express Company ("American Express")

According to its publicly available filings with the SEC, American Express is a leading global payments, network and travel company that offers its products and services throughout the world. The common stock of American Express is listed on the New York Stock Exchange, which we refer to as the Relevant Exchange for purposes of American Express in the accompanying product supplement no. 37-IV. American Express’s SEC file number is 001-07657.
